

## Educational-Pedagogical Objectives

On my initiative, at my school a group of students with learning difficulties participates in the Etwinning project entitled *Creating Communicative Language Learning Environments Through Intercultural Exchanges* (2023-2024) in an inclusive context with students from France and Turkey seeking to give the participants the opportunity through cross-cultural exchange activities , knowledge and experiences **a)** to accept diversity by promoting acceptance and respect and opening intellectual horizons, **b)** to cultivate language, communication, organizational, social and digital skills, **c)** to understand through experiential teamwork creative activities the inherent diversity as a source of creativity and richness of a multicultural society while simultaneously promoting the European dimension in education, and **d)** to disseminate the project activities in the school community.
