## Kindergarten biology activity

With the help of the teacher Mrs. Liana Psari and her student Kiriakos of the High School of

Arethousa,

our students had the opportunity
to see a microscope up close
and observe:

- cotton
- onion cell
- human cell
- insect's leg.

They were excited and felt like real little scientists.

The children observed and then drew what they saw.

The children prepared a bouquet of paper flowers and a thank you card and then we visited the High School to present them to Mrs. Liana.
