# SPACE VOYAGERS

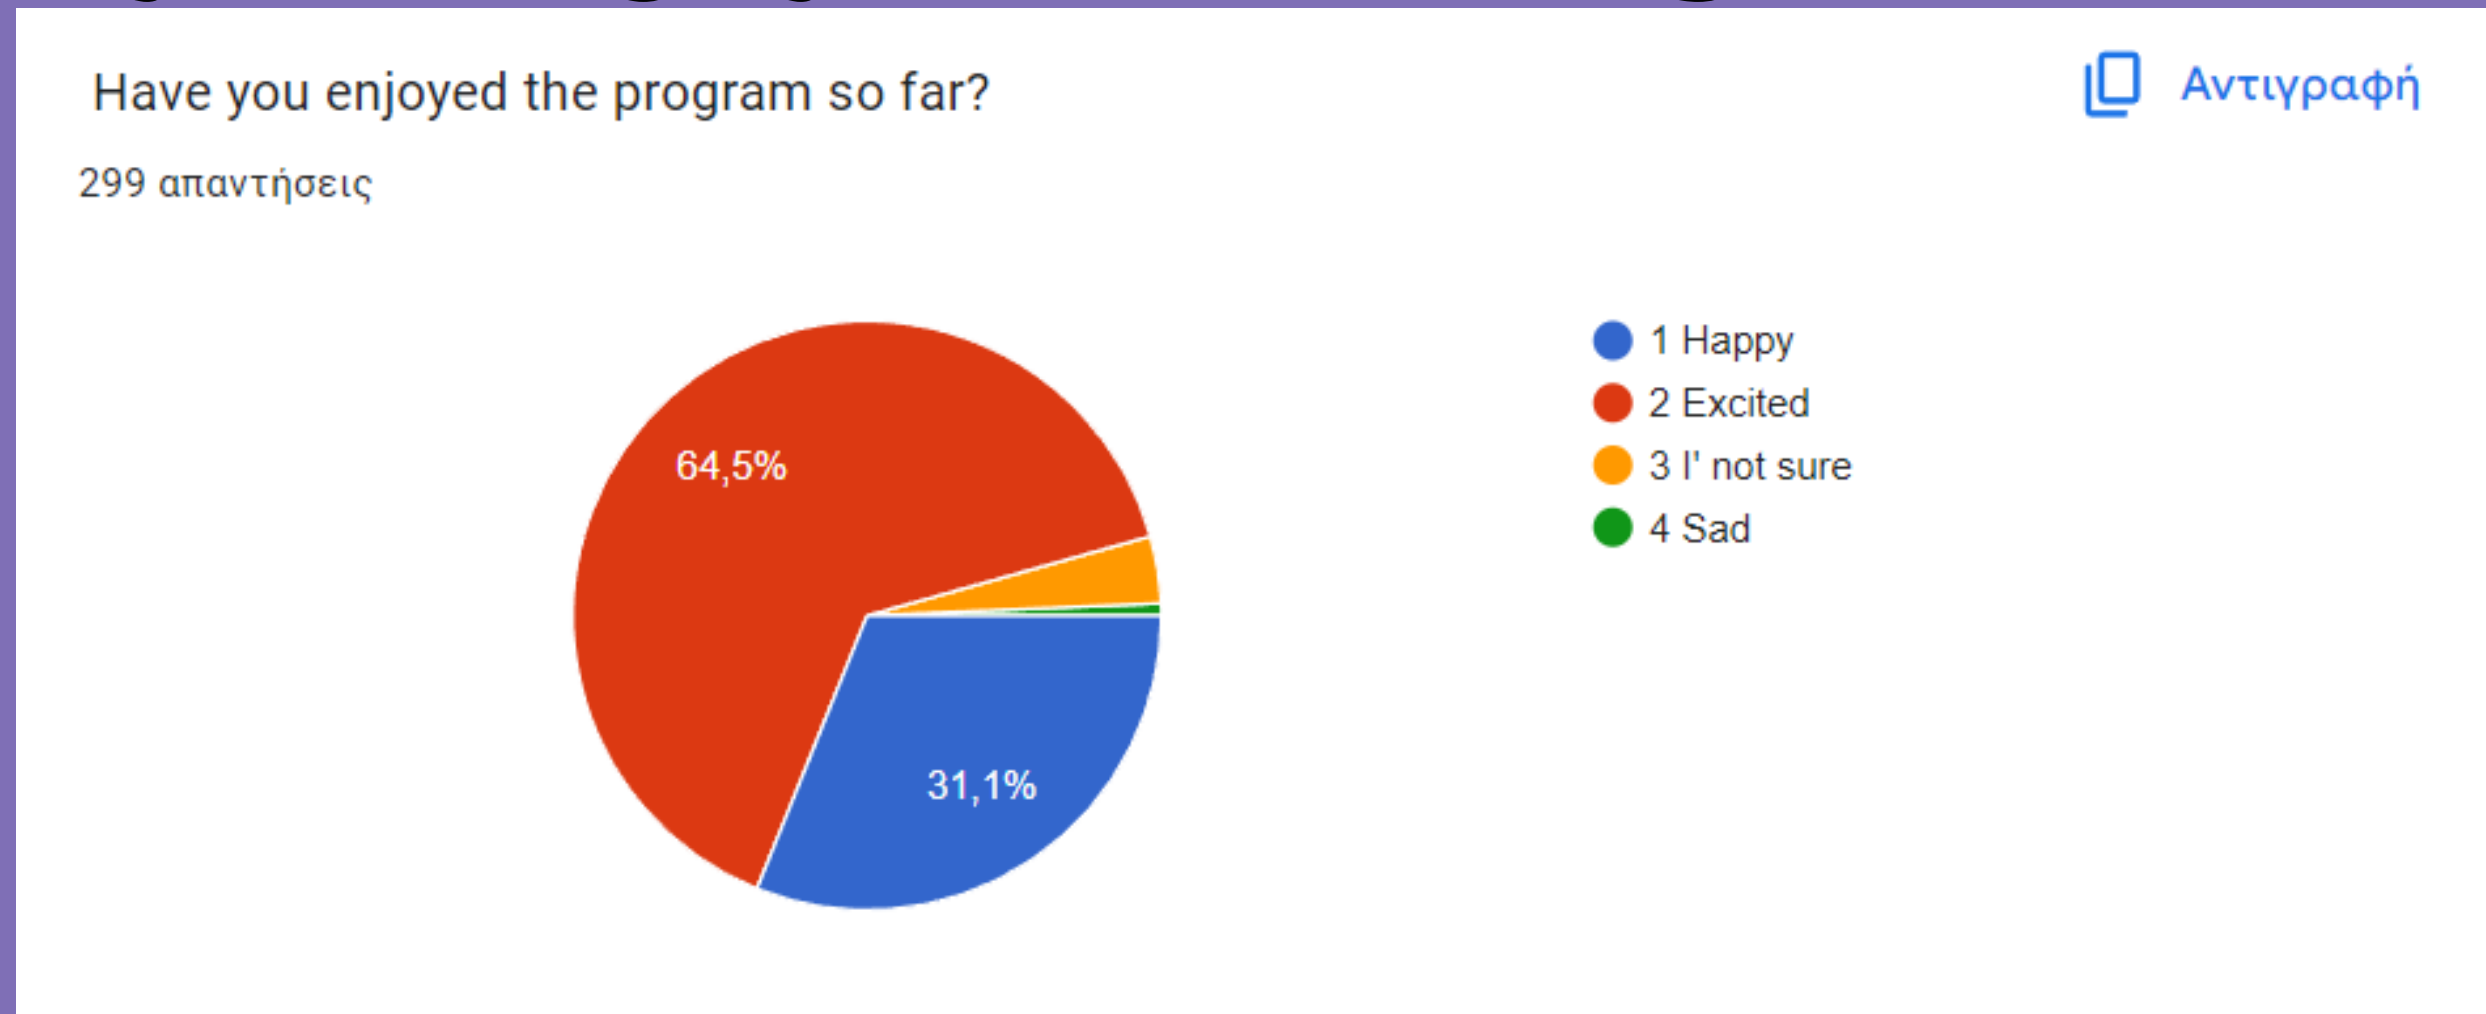

Results of formative  
evaluation for students

**29th Kindergarten of Ioannina 2023-2024**

299 students  
participating in the  
project responded to  
the Formative  
evaluation

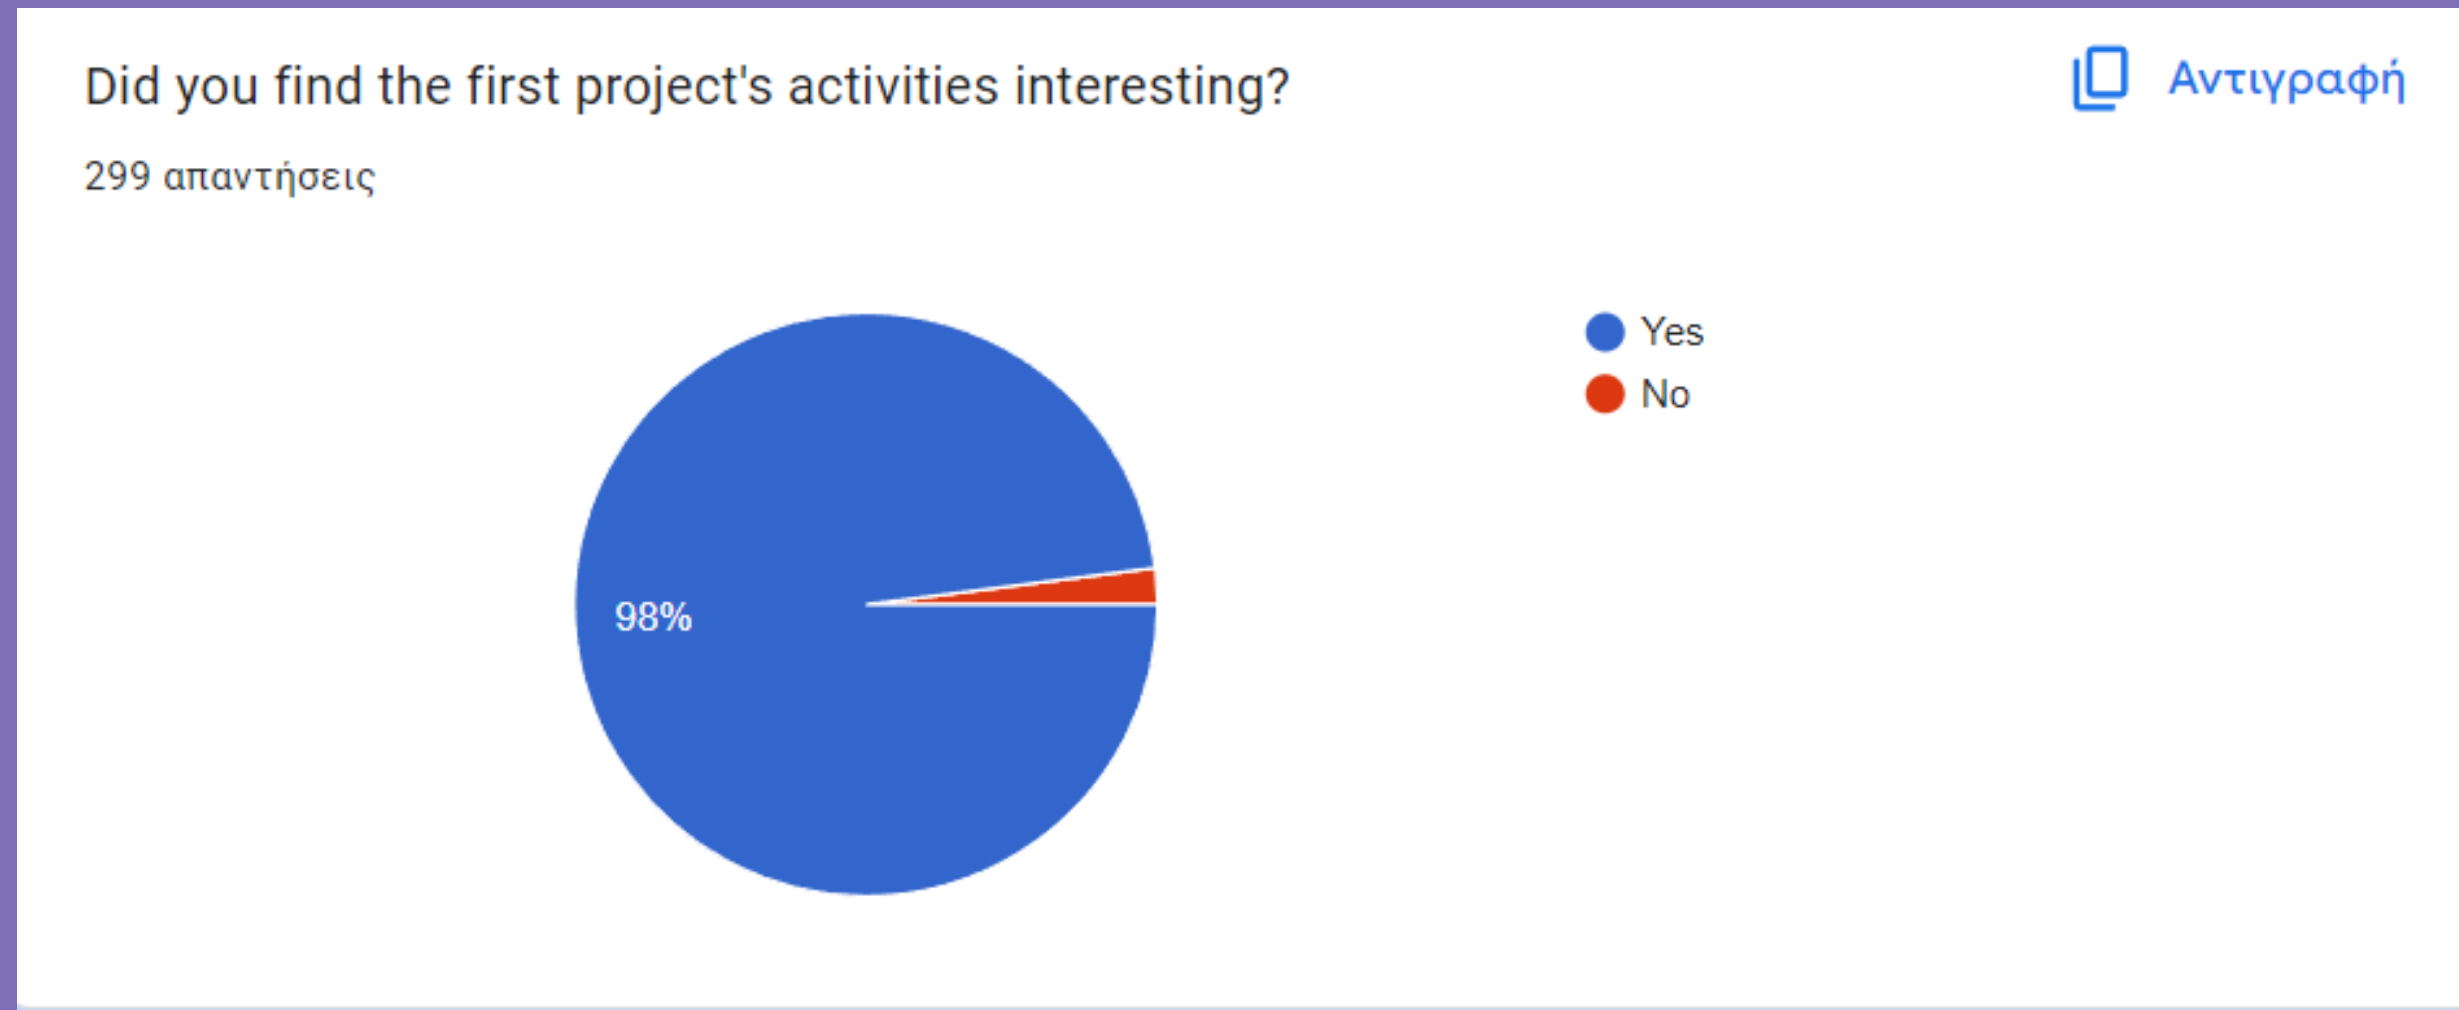

# Have you enjoyed the program so far?

**31.1% of the children who took part in the evaluation feel happy to participate in the project and 64.5% is excited.**

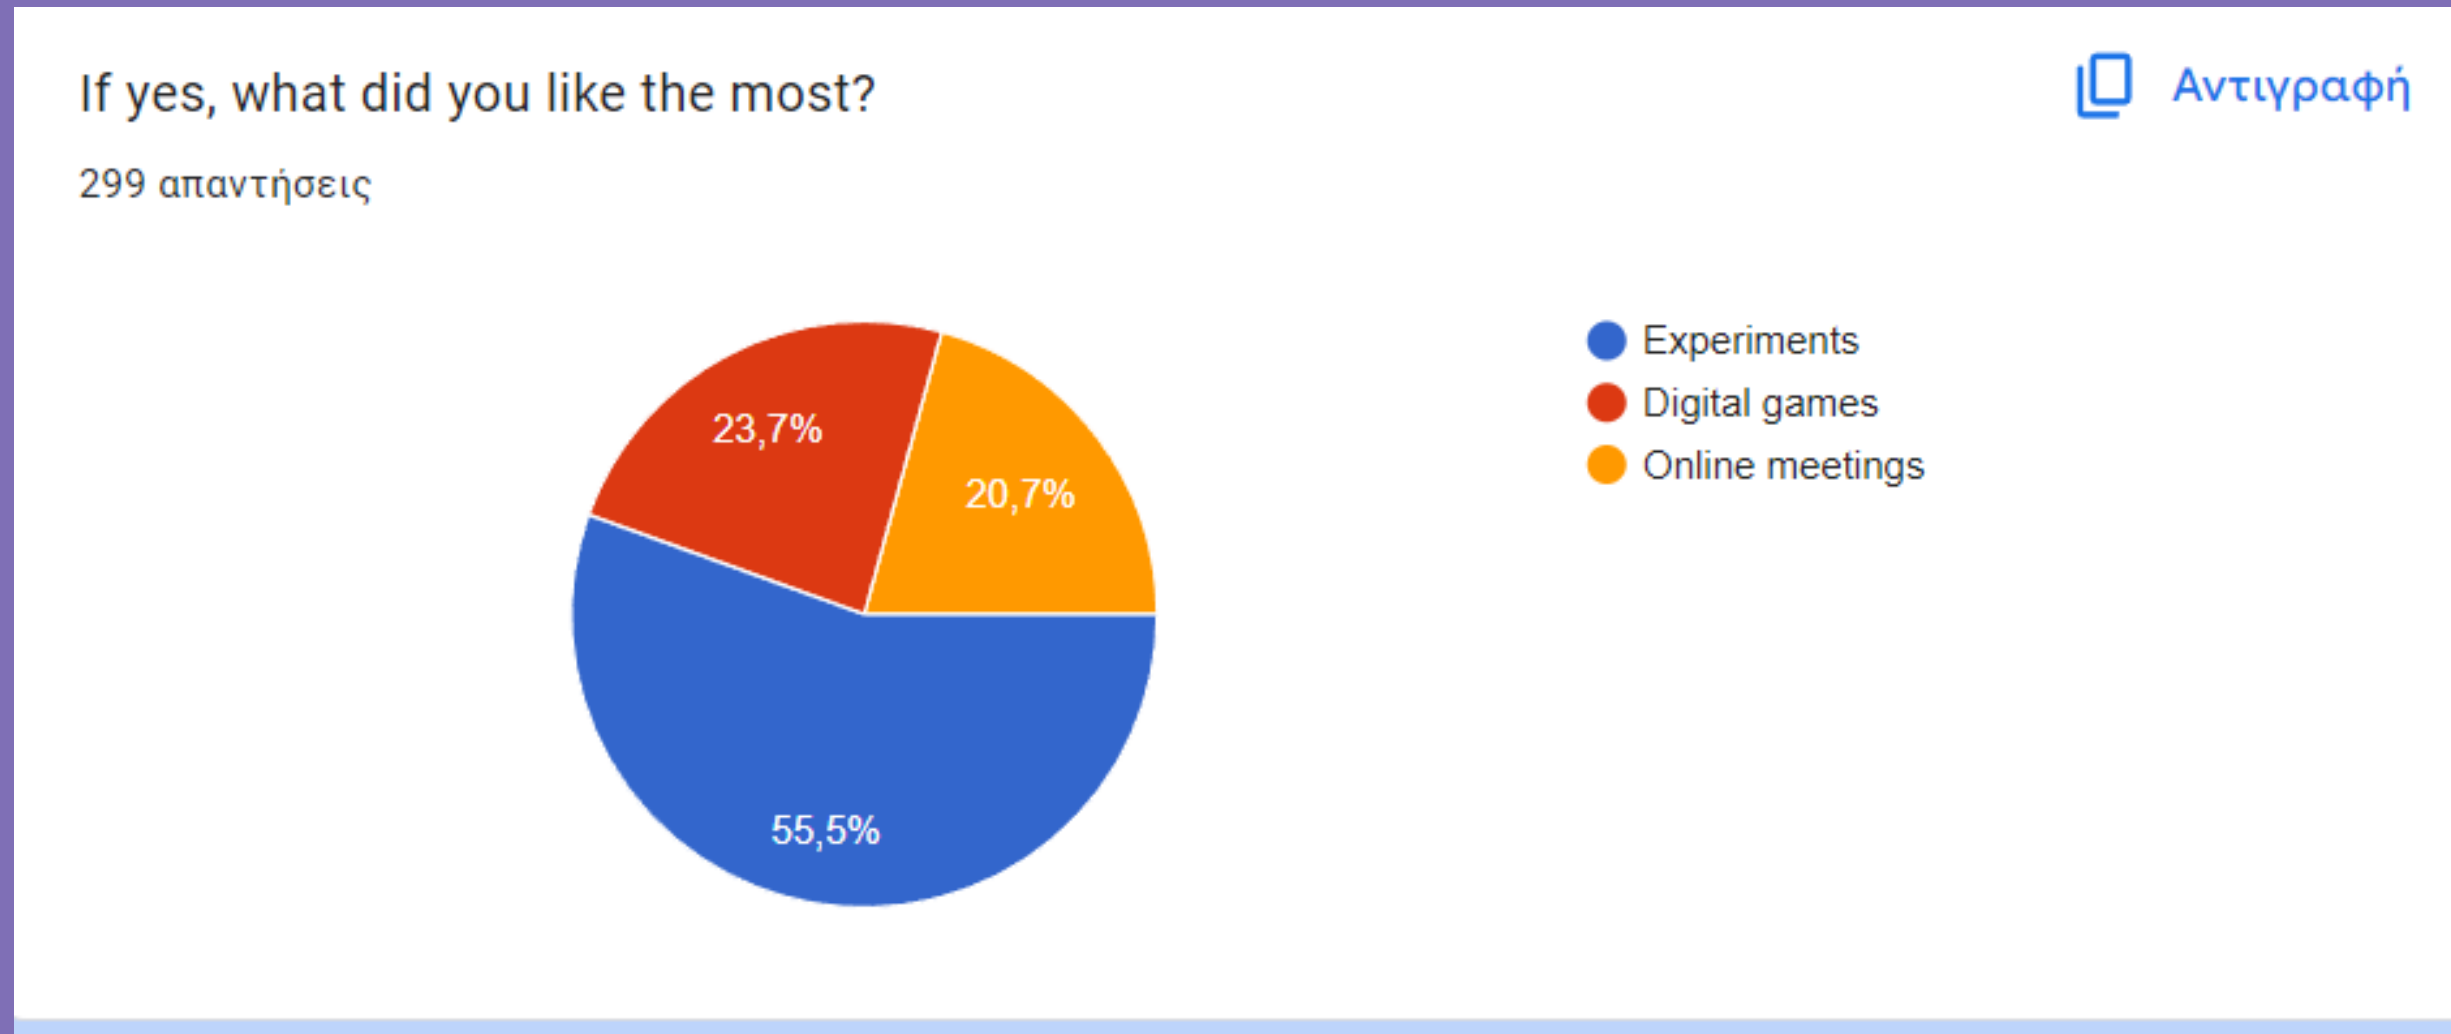

**A small percentage is not sure how they feel and a very small percentage feels sad**

# Did you find the first project's activities interesting?

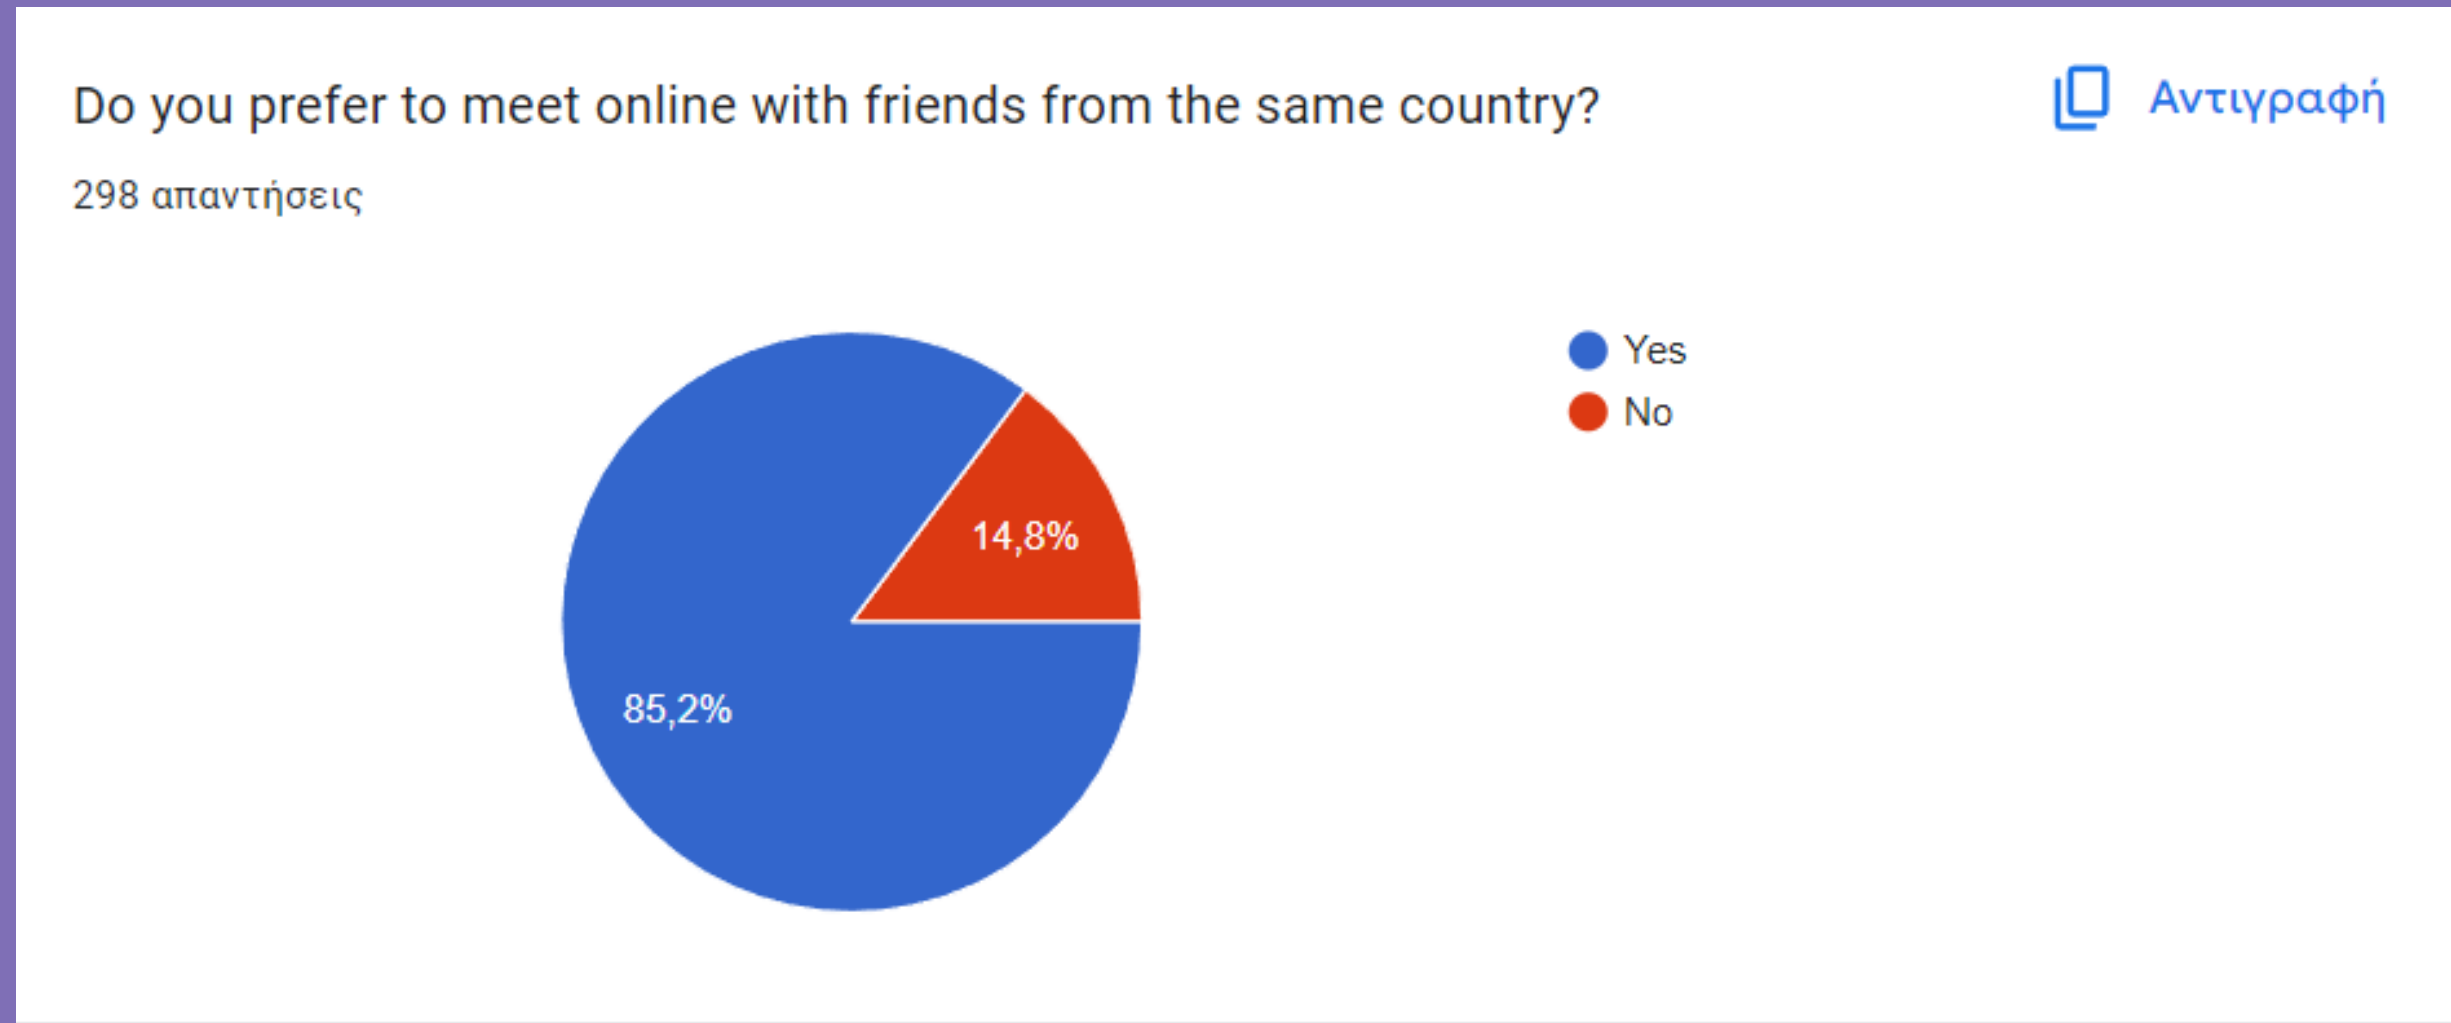

**The vast majority of children (98%) find the project activities very interesting.**

# If yes, what did you like the most?

**55.5% of students liked the experiments more, 23.7% preferred the digital games and 20.7% enjoyed the online meetings**

# Do you prefer to meet online with friends from the same country?

The majority of participants (85.2%) preferred online meetings with schools from the same country in contrast to a percentage of 14.8% who preferred to meet online with children from different countries.

**The results show that the students are excited about participating in the project, they find the activities interesting (with a particular preference for experiments) and feel more comfortable when meeting online with students from the same country.**

*Thank  
You*
