We want peace - 8th PS of Amaroussion

Peace is better than war because in war people are killed. There must be peace, because we are all equal. We should all be together as one family, regardless of being from different races and states.

Why do we celebrate? 8th PS of Amaroussion

On October 28, 1940, Italy asked Greece not to resist. What we are celebrating is the no that the Greeks said and that they refused to a powerful country. Then a very big war started.

What do we remember about this day? 8th PS of Amaroussion

On October 28, 1940, the Greeks resisted the Italians who declared war on them. They fought for their homeland, for their families, they fought for Greece. They fought hard. Thus Greece entered the second world war.
