

Dissemination of Erasmus+ RESPECT project to parents

On April 17th 2018, Erasmus+ students had open door meeting with parents at school. Students presented their experience during participation in the project. They also presented the outcomes of the project before the final meeting in Greece. Parents had the opportunity to view presentations and videos from transnational and learning/teaching meetings. They were also informed about blog pages of the project.

Following the presentation there was discussion about the impact of the project to students, parents and teachers.
