All About Easter

What is it?

Easter is the most important event in Christian calendar- yes, more important than Christmas! Christmas is Jesus's birthday, but Easter is when he died...and then come back to life!

When is it celebrated?

It is celebrated in April. The date changes every year and depends on the full moon. It can be any time between March 22nd and April 25th. Easter means four days off school. Friday and Monday are holidays.

The meaning behind Easter is Jesus. Jesus died on "Good Friday" and come back to life on "Easter Sunday".

How we celebrate?

Christians go to church. Other people give each other chocolate eggs and have parties. Traditionally, eggs are bought by the Easter Bunny. The Easter Bunny is a rabbit. He first appeared in Germany in 1682. These days, most companies make chocolate eggs. Sometimes we make our own, too.
