World Assembly and International Conference

Transforming Early Childhood Systems for Future Generations

World Assembly 4 - 5 July, 2016
 International Conference 6 - 8 July, 2016
 Ewha Womans University, Seoul, Korea

 **2016 OMEP KOREA**

WELCOME

Welcome to the 68th OMEP World Assembly and International Conference in Seoul, Korea. Preparing children for the future is the central role of early childhood education. Responding to the global issues of education and development of children is imperative for the future generations.

The Incheon Declaration adopted in World Education Forum 2015 requires that the global community transform Early Childhood Systems to enhance the quality of education. The transformation will ensure higher quality of early childhood education and learning for children. It is our goal to create more effective systems that better meet the needs of both current and future generations.

The 68th OMEP World Assembly and International Conference in Seoul will provide an arena for the global community to continue the discourse on 'Transforming Early Childhood Systems for Future Generations.' Please join us as we create the prospect for educational innovation in global society.

Eunhye Park, Ph.D.
President, OMEP Korea
