# MY BLUE HOME

Ocean Literacy and Sustainability

The ocean is vital for life on Earth. It produces over half of the world's oxygen, absorbs carbon dioxide, regulates the climate, and provides food and livelihoods for billions of people. It also supports diverse ecosystems, biodiversity, and natural resources essential for human well-being. Additionally, the ocean offers opportunities for recreation, tourism, transportation, and scientific research. Protecting the ocean is crucial for sustaining life and maintaining a healthy planet!

**MyBlueHome** promotes awareness among primary school children of the importance of the ocean for the future of the planet and raises awareness of issues related to its sustainability.

**Digital educational game** that involves children in a captivating adventure of discovery, with problems to solve, concepts and questions.

**Ocean exhibitions** in various schools with the active participation of pupils, parents and teachers.

**Guide to setting up Ocean Museums** in schools, with a model and guidelines to help schools set up their own Ocean Museums.
