Students from the 6th Primary school of Piraeus send a message to the world

We like to talk about...

Friendship

Friendship is when you want the best for your friends and when you do everything to make them happy. Friendship means to trust, to love and to protect one another. Friendship means to be together in good and in bad times and to keep in your life the people who stand by you no matter what.

Χριστίνα-Νεκταρία, Δήμητρα, Στ1

Personality and colours

a person you may like a colour. But, did you know that this colour can tell a lot about your personality?

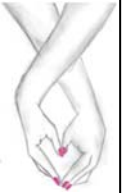

People who like black, usually share secrets only with their close friends and find it hard to open up to others, but people who like white are well organized and like to solve problems using logic.

Those who like red are passionate and are not afraid to talk about their feelings, but those who like blue are calm and loyal. If you like green you are good at organizing your time, if you like yellow or orange, you are very optimistic and social and if you like purple you are a creative person. Finally, people who like pink are those who believe in being loved and accepted by others, while people who like grey try not to attract attention on themselves.

Αγγελική-Βέρα, Στ1

Love yourself

We should all love and respect ourselves for who we are and what we do. People should think before doing something that can hurt others. Broken hearts take time to heal. Do not let other people hurt your feelings. You should always remember that you are the most beautiful person on Earth and you should love yourself!

Νεφέλη-Μαρία, Δ1

Recycling

Recycling is very important for our planet. Everyone must recycle because our planet is in need. We can recycle a lot of material such as glass, aluminum, paper and plastic, and we can compost the food we do not want any more. In Greece, recycling bins are blue and we cannot throw in them items we cannot recycle. Some of these materials we cannot recycle are wood, petrol or food.

Ηλέκτρα, Αθανασία-Αλεξάνδρα, Αικατερίνη Ε1

Racism

There are many kinds of racism. Racism is when we behave badly to others because they are different.

The most common type of racism is against people of different skin colour and of ethnicity. Racism is very bad, because it makes people feel upset. A person who has experienced racism is Dr. Benjamin Chavis because he was black. Although he faced racism, as he grew older he fought for the rights of the black people. He said that black people should not be ashamed of their skin colour and they should not feel revengeful against the white people. We hope everyone learns to protest against racism.

The Bermuda Triangle

The Bermuda Triangle is an area that causes mysterious phenomenon that makes ships and planes disappear. The Bermuda Triangle is in the north Atlantic ocean. The Bermuda Triangle has three corners: Puerto Rico, Florida, and Bermuda. Many people say there is no mystery. Others say the lost Atlantis was located there. Some others say that there are extraterrestrial beings, but the most scientific explanation is that some bubbles were created by the atmosphere at that specific point. As far as I know, this mystery will remain a mystery forever.

Nature and the world around us

The Kokoni

Kokonis are a pretty friendly and playful breed of dogs. When they are young they are full of energy but, as they grow they start to chill. They like to sleep for about 13 hours per day. They are really cute and protective towards their family which means they bark to anyone they see outside. In my opinion they are the cutest and happiest dogs and a fun fact is that my dog Zina is a Kokoni too.

Persian Cats - Find the underlined words

The Persian cat is one of the oldest cat breeds. It originates, as its name suggests, from Persia, in today's Iran. It is a medium to large sized cat. It has a large broad and round head and an extremely short muzzle. Its legs are short but thick to support its body. Its ears are small and round, while its eyes are large, round and bright. The colour of its eyes is directly linked to the colour of its coat, so they can be black, green or blue. The colour of its coat can be white, brown or grey.

Kangaroos

Kangaroos live in Australia. Their favourite food is grass, fruit, moss and flowers but they need very little water to survive! Kangaroos are really tall and have big feet to protect themselves from their enemies. They even have a pouch to carry their babies, which are really cute.

Μαρία - Βικτωρία, Ε2

Birds and Dinosaurs

Archaeopteryx is an example of a bird dinosaur. It had teeth and a long bony tail like dinosaurs, but it had feathers and wings too, just like dinosaurs. Now, almost 80 million years later, we cannot see it anymore. We can only meet birds. Birds evolved from those old dinosaurs and that is why they are so similar.

Ιωάννης-Αλέξανδρος, Ε2

Flamingos

Flamingos are birds that live in South America and in Africa. They have big wings, and they can fly. They are 90 to 130 cm tall and weigh 4 kg. They live in lakes, and they are born white or grey. They like to eat shrimps so they become pink when they grow older. They live in lakes. Their eggs hatch after 30 days and their parents take care of them for five days. Then they send them to big groups to learn to find food. Parents can recognize young flamingos from their voices.
